Projects

Portfolio Website

Link : https://sonalkhapre.github.io

- Dynamic and contemporary web portfolio using React.
- Emphasis on responsive design and user-friendly navigation.
- Modern design, intuitive user interface, and appealing color schemes.
- Detailed project section that offers detailed insights into my accomplishments with code repositories and live demos.
- Integrated EmailJS for seamless and secure communication.
- Effectively showcases web development skills and dedication.

Movie Search App

Link : https://sonalkhapre.github.io/favorite-movie-search-app/

- Created a React movie search app, utilizing the OMDb API.
- The app seamlessly fetches real-time movie data and presents it through a user-friendly interface.
- Has a responsive design with seamless user experience on both desktop and mobile.
- Added a feature allowing users to build a list of favorite movies for enhanced engagement and personalization.
- It caters to movie enthusiasts, offering a valuable tool for film discovery.

Chinese Food Ordering Website

Link : https://sonalkhapre.github.io/React-frontend-food-website/

- Developed a Chinese food ordering website using React.
- Implemented user registration and authentication for an efficient ordering process.
- Designed a dynamic menu system for browsing and customizing orders.
- Emphasized mobile responsiveness for a seamless experience on all devices.
- Prioritized user-friendly interface and ease of online food ordering.
- The website serves as a user-friendly platform, catering to the modern trend of online food ordering.

Additional Skills

- Strong problem-solving and analytical abilities.
- Effective communication and collaboration skills.
- A passion for staying updated with the latest technologies.
